Too, it answers the needs of tennis courts, bowling greens, and other grass surfaces where a ball is required to run or bounce true. Lb. 75 cts., 5 lbs. \$3.50, 25 lbs. \$16.50, 100 lbs. \$65.00.

## **SHADY PLACE LAWN GRASS**

# FIFTEEN SPRING BULBS

The small bulbs of the spring flowers are so much fun. You tuck them into the nooks and crannies of a rock-garden, or let them peep between the leaves of a low-growing ground-cover. Or sometimes give them a place all to themselves which will later become part of the larger garden. Most of them are quite inexpensive, and while we are not suggesting any specific collections, we will gladly choose an assortment for you at any price you want to set — and make it an extra-special value. Most of these little bulbs may be grown in the house, too.

## Daffodils or Narcissus for Naturalizing

One of the really delightful ways of using Narcissus is to naturalize them. If you have grassy places under trees, or along a shady walk, scatter handfuls of the bulbs and plant them wherever they fall; this gives a naturalistic effect and you will be delighted with the result next spring. Such a planting is not only permanent but the bulbs increase and your planting becomes better each year.

There are many different types and varieties in this Mixture, from the Giant Trumpets down to the blazing short-cupped varieties.

A large planting gives bloom over a long period.

**60 cts. per doz.; \$4.50 per 100; \$40.00 per 1000**
